AIR FRYER SILICON PAN

AD 6736

Size: 19.8 x 13.1 x 7cm

Air fryer silicone pan

19.8 x 13.1 x 7cm silicone liner for air fryers. Makes it easier to take out food out of air fryer. Perfect for baking, frying, steaming, pan cooking, microwaving, air frying, freezing and serving food. Reusable. Material: 100% BPA-free food grade silicone, non-toxic, odorless, non-stick surface.

Cautions:

1. Use at temperatures from -40°C to 230°C.
2. Keep away from fire
3. Do not place air fryer pan without food directly into the air fryer. Air circulation can cause the liner to lift and touch heating coils
4. Do not use the liner when preheating the air fryer

Maintenance:

1. Wash in dishwasher (programs up to 75°C)
2. For hand washing: soak in a warm water with detergent for a while. It will be easier to clean.
